(512) SMaSH is a new series of beers designed to be both enjoyable and educational. Short for Single Malt and Single Hop, these beers are brewed using only our USDA Organic two-row malted barley and one single hop variety at a time.

For this first release, we're studying our hop friend, Mosaic, a hop found deep within (512) PALE. With notes of lemon, peach & passionfruit, Mosaic has a very pleasing bitterness and lasting aroma. At 5.3%ABV and with virtually no malt sweetness that typically balances hop bitterness, all 30 IBUs show through. We hope you enjoy sampling our hop experiment and look for more to come!

5.3% ABV | Seasonal
